CROSBY S. NOYES ... Editor. Average moorn Daily Circulation over 17,500-being a much larger bona fide, regular and permanent circulation than that of all the other daily papers in the

The Star for the Summer.

city added together.

Persons leaving the city may have THE STAR sent to their address by mail, postage prepaid, for such period of time as they may desire, at the rate of 15 cents per week, 60 cents per month, \$1.75 for three months, or \$3 for six months. The money to pay for the time required must in all cases accompany the order. Otherwise the paper cannot be sent.

The District Commissioners Appointed.

The agony is over! The President this afternoon sent in the names of Josiah Dent and Captain Phelps (present Commissioner) to be the civilian Commissioners under the act of Congress. This accords with our information on Saturday, and shows that the reports in circulation since then, contradictory of our statement, were groundless.

Mr. Dent is a resident of Gergetown, and is known as a man of character and ability. He | DR. HARTLEY'S GREAT REMEDI is of the Maryland Dents and came here a young lawyer many years ago. He married the adopted daughter of E. M. Linthicum, of Georgetown, and resides now in the fine old Linthicum mansion on Georgetown Heights. He was an active member of the Citizens' Committee of One Hundred in the successful effort to secure legislative justice from Congress for the District, and his appointment for Commissioner was warmly urged by a number of the leading members of that committee. Capt. Phelps is already favorably known in the capacity of Commissioner, and in addition

The New Justices.

to his personal high character he has the

advantage of several years experience in Dis-

trict government.

The list of fifteen justices appointed under the recent 'aw of Congress, creates surprise and no little dissatisfaction. There is much enquiry as to the principle on which the selection was made, and the kind of endorsement that had weigh'. While several of the nominess are undoubtedly well qualified for the position, there are others who are notoriously unfit, and it may be said of a large portion of them that their appointment is a genuine surprise to the community, especially in view of the fact that it was supposed to be the in tention of Congress in passing the bill to improve the quality of the magistracy of the District and to secure the selection of men known to the people as capable and trustworthy. It may be that the comparatively unknown men in the list will in their official conduct justif the wisdom of their selection, but they can i i no event earn a higher reputation than the men of known ability and integrity they d'splace. But it is difficult to conceive on what principle of civil service reform magistrates of the character and ability of J. T. C. Clark, Terence Drury, William C. Harper, S. C. Mills, W. H. Chase, M. V. Buckey, Thomas Lynch, Jenken Thomas, Wm. Martin, Amos Hunt, and others of like standing in the conmunity have been turned out to make room for novices, and worse.

The European Congress.

To-day the real work of the European Congress begins. The preliminary formalities have all been disposed of, and now comes the tug of war, if the expression may be used concerning a peace congress. It is suggested that the policy of Bismarck will be to bring up immediately those questions in respect to which there is likely to be the greatest difficulty of a satisfactory settlement. If this be so the success or failure of the Congress will soon be determined. The expectation was that after the question of the admission of a representative of Greece to the Congress, for the purpose only of consultation, was settled in some way, the subject of the boundaries of the new Balgaria would be discussed to-day. On this subject Andrassy will no doubt have some opinions to express, which will produce discord. The cutand-dried arrangement between England and Russia in respect to the matter is very tasteful to Austria, and is Mkely to be criticised by her representatives. If this difficulty can be overcome in the first flood of good feeling among the plenip tentiaries, a hopeful sign of the result of succeeding deliberations will be afforded. The secrecy of the sessions of the congress will cause the air of Berlin to be full of unreliable su nors as to its doings, which will reach the United States in the form of unquestioned facts. The report that an ugly hitch has already arisen in the proceedings, by the demand of Beacons. field that the Russian and English forces shall simultaneously withdraw from Constantinople before anything further is done, must be re. ceived with caution. Such a move, in view of the jealousy and distrust and feelings of hostility liable to be excited by it, and the impracticability of a satisfactory carrying out of the plan suggested, would be an indica ion that the English government does not desire the congress to succeed and will force a war. It is not believed that this is Beaconsfield's position.

We do not care to take part in the matter of the appointment of Health officer, but as a morning cotemporary, in urging Dr. Keene for the place, alleges as a reason why Dr. Townshend should not be appointed that his brother strenuously opposed the District fifty per cent. clause in Congress, it is only justice to say that this statement is an error. Mr. Townshend opposed some features of the District bill, but favored the fifty per cent. equity, and was even willing to make the government proportion seventy-five per cent.

The Fishery Award bill should be resurrected from its burial place under a heavy and numerous assortment of other bills, and be carried, or otherwise disposed of. Congressmen should even be willing to become resurreclionists, to save themselves and the country from an extra session.

A difference of opinion on an important point has caused a rupture among the European Masons, and it may be necessary for the American branch of the fraternity to take some action on the question at issue. The French Masons who, last year, proclaimed publicly their disavowal of all belief in a Supreme Being, have been successively repudiated by the Irish, English and Scotch Masons, and read out of the fraternity. As a belief in God has always been an essential part of Masonry, and in view of the fact that by the action of the British Grand Lodges, silence on the subject will be construed as a support of the atheistical declaration of the French branch, it is not improbable that some public notice of the matter will be taken by the Masonic fraternity of the United States.

-----The New York Sun has much less to say about the enormity committed by the democratic House in endorsing the title of President Hayes than was expected. Probably Dana finds himself at a loss for language to adequately express his feelings.

Those would-be emigrants to Liberia who were compelled to leave the Azor and remain at home, lest the ship should be overcrowded, will not now regret that they were disappointed. The sad news comes that, owing to close confinement, scanty accommodations, and lack of water, the ship fever broke out among the emigrants, intense suffering prevailed, and twenty-three deaths occurred. It is said that at one time there was reason to fear that the ship would be nothing less than a floating charnel house. It is to be hoped that the future success of this emigration movement will be sufficiently great to falsify the

ill-omen of such a bad beginning. The Eothen did not sail on Saturday as was expected, but will leave New York some day this week. The date of the disinterment of the Franklin records from under a pile of stones in the solitudes of the frozen North is consequently postponed a few days,
